About Us

IHT Network Limited

Pioneering IT, Telecom, Electronics training across the Sub-continent

We are truly pioneers in the sense that we have taken IT, Telecom & Electronics Training to the masses and not just limited our efforts to the metros or commercial capitals of states. This is testimony to our commitment toward the youth, our endeavor to help them claim a share and earn a decent living off the phenomenal growth of the industry.

We have trained more than 10,000/- students till today, out of which, we have placed almost 76% in different corporates, companies, firms, workshops & different industry domains.

Company Profile

We are a leading player in the IT, Telecom & Electronics Training domain, having trained and placed service professionals successfully for the past ten years. Incorporated in 2006 we have grown in size and stature and now can claim a strong presence in the subcontinent through a network of more than 50 franchise centers and a growing year to year.

The company strives towards business excellence by virtue of its core competencies in the spheres of R&D, content development, training and education, and quality management. IHT students have found positions in leading IT and non-IT organizations in India and abroad. Abreast with the latest developments and changes in the industry we ensure that they are reflected in our curriculum which is 100% industry relevant.

Quality Policy

IHT is committed to satisfy the customer needs and fulfill their expectations and provide a service which embodies quality and reliability. Regular up gradation of processes, training, and active involvement of employees from the bottom to the top, make us effective in this regard.

Mission

To expand into a fully developed network of training Institutes throughout the globe, to provide opportunities to all aspirants to attain self-reliance & economic liberty.

Vision

To become a leading global player in the field of Information Technology, Telecom and Electronics training. To bridge the demand-supply industry academia gap.

Range
of our
Capabilities

Ensuring World Class Training

The challenge of imparting uniform, up to date and industry relevant training across the network is well met at IHT.

Development of the courses, delivery and execution, analysis and feedback, examination and placement are all standardized under a central control system which ensures that all centers of the IHT network maintain the same high quality the Head Office aspires. This is achieved through:

R&D Team	Closely monitors the industry to include changes and new developments which then are aptly reflected in the study material through additional updates or new editions
Faculty Training	Centralized training of new faculty in the subject field, technical skills, communication and teaching skills creates well equipped trainers
Counselor	A skilled counselor is an asset that can directly influence the number of admissions into a center; IHT holds bi-annual workshops on selling, communication and persuasive skills for counselors
Faculty Upgrade	Short training sessions to refresh, re-zest and upgrade information, ideas and skills keep faculty across all centers knowledgeable, up to date and enthusiastic
Placement Cell	Dedicated student Placement cell takes care of broad student issues like students placement assistance, pre-placement training, feedback, dropout analysis, transfers etc.
ATC Support	Company have well established authorized Training Centre, Pre and post support system, which includes logistics, centre management, advertising, marketing, placement, exam & new course up gradation.
Centre Monitor	The HO monitors details of enquiries, admissions, attendance, dropouts, fee details, test details, project status, online exams, marketing reports, centre/faculty performance etc.
